

Section II (Remarks)

As noted herein above, the November 25, 2005 Notification of a Defective Response incorrectly references a previously submitted sequence listing in computer readable form, inconsistent with the file records of the undersigned attorney and the USPTO PAIR records for this application.

It therefore is requested that the USPTO correct its records for this application.

Enclosed and submitted herewith is a computer readable sequence listing on diskette, together with the written sequence listing and statement of identity complying with the requirements of 37 CFR 1.821-1.825.

Correspondingly, the specification has been amended herein to reference the various nucleotide and amino acid sequences in the specification as SEQ ID NO: 1 to SEQ ID NO: 6, consistent with the computer readable sequence listing and documents identified in the preceding paragraph.

It therefore is requested that a Notice of Acceptance of Application Under 35 USC 371 and 37 CFR 1.495 now be issued for the application, and that the application be passed to examination on the merits.

Respectfully submitted,

Steven J. Hultquist
